IEC CAMPAIGNS

Campaigns - Offline through the canopy, Banners, Print press along with poster and word of mouth. Online - Social Media Platforms and Website.

Softwares for integrated Waste management & User Fee Collection

Integration of Vehicle GPS tracking, RFID tags, Centrally Monitoring systems and etc.

DOOR TO DOOR COLLECTION

We offer complete Waste Management Services, from the collection, transportation to processing. We offer end to end Waste solutions.

OUR SERVICES

SORTING & PROCESSING

Depending on the nature of the source material, there are a plethora of sorting and processing activities utilised that range from labour intensive hand picking operations through to highly mechanized or technically complex processes. The chosen method of sorting will depend on many factors.

PROCESSING OF LEGACY WASTE

Inspired by Nature, We ensure good returns to nature by focusing on disposing of all Waste sustainably and minimizing environmental impact.

OWC MACHINES

Semi-automatic as well as fully automatic machines available.

Our system, rapidly processes organic waste - kitchen waste, garden waste, food processing waste - into rich compost, thus saving it from rotting in the landfill.

BALLISTIC SEPARATOR & MSW TROMMEL

Ballistic separation is used to do three distinct separations: flexible materials, rigid materials and to screen out a certain size fraction of material.

Our waste separation systems and solutions are utilized to separate waste on both material density and volume, using controlled air.

Shredder

Ballistic Separator

Ballistic Separator

Trommel

OUR PRODUCTS

Mobile Toilets

A portable toilet is not connected to a hole in the ground (like a pit latrine), nor to a septic tank, nor is it plumbed into a municipal system leading to a sewage treatment plant; it can, by definition, be picked up and moved.

- Stationary toilet cabins mobile 510-toilet
- Luxury mobile 810 toilet
- 510 digester (FRP/ engineering plasm)
- 810 digester (RCC)
- 1310 digester (PUF insulated)

CBG PLANT

The biogas is purified to remove hydrogen sulfide (H_2S), carbon dioxide (CO_2), water vapour and compressed as Compressed Bio Gas (CBG), which has methane (CH_4) content of more than 90%. 4. CBG has calorific value and other properties similar to CNG and hence can be utilized as green renewable automotive fuel.

HOME COMPOSTING KIT & PLANT CARE KIT

- Ideal for Home composting in Small families.
- Aesthetically designed, functionally designed to compost all your kitchen and food waste.
- Hassle-free, easy to use, easy to maintain and easy to convert your organic waste to organic manure. Eco-friendly and Convenient materials used.

PLANT CARE KIT
